PRESS RELEASE

AeroVironment, Inc. Announces Fiscal 2015 First Quarter Results

MONROVIA, Calif., September 3, 2014 — Aero Vironment, Inc. (NASDAQ: AVAV) today reported financial results for its first quarter ended August 2, 2014.

"Solid performance in our first quarter produced an 18 percent increase in revenue and 12 percent increase in gross profit on a year-over-year basis. These results, combined with 25 percent growth in funded backlog over the fourth quarter of fiscal 2014 and cash flow from operations of \$14 million, demonstrate continued momentum across our businesses," said Tim Conver, AeroVironment chairman and chief executive officer. "Strong bookings, which continue in the second quarter, provide us with greater visibility into full year revenue and strengthen our confidence in our financial outlook."

"Responding to increased customer interest, this quarter we began the investments we announced in our first quarter to position AeroVironment for three large growth opportunities. We believe investing now in Commercial UAS, Tactical Missile Systems and Global Observer will position AeroVironment to lead when adoption accelerates and will generate significant value for our stockholders in the near- and long-term" Conver added.

FISCAL 2015 FIRST QUARTER RESULTS

Revenue for the first quarter of fiscal 2015 was \$51.9 million, up 18% from first quarter fiscal 2014 revenue of \$44.1 million. The increase in revenue resulted from increased sales in our Unmanned Aircraft Systems (UAS) segment of \$6.0 million and in our Efficient Energy Systems (EES) segment of \$1.8 million.

Gross margin for the first quarter of fiscal 2015 was \$14.1 million, up 12% from first quarter fiscal 2014 gross margin of \$12.5 million. The increase in gross margin resulted from higher gross margin from EES as a result of higher sales volume and favorable product mix, offset by lower gross margin from UAS due to the inclusion of the termination cost settlement for the Global Observer Joint Capability Technology Demonstration contract in the first quarter of 2014 that was not in the first quarter of 2015 and higher costs on service-related contracts.

Loss from operations for the first quarter of fiscal 2015 was \$6.5 million compared to loss from operations for the first quarter of fiscal 2014 of \$7.1 million. The lower loss from operations was a result of higher revenue, resulting in \$1.5 million higher gross margin, and lower research and development (R&D) expense of \$0.1 million, offset by higher selling, general & administrative (SG&A) expense of \$1.0 million.

Other income, net, for the first quarter of fiscal 2015 was \$0.6 million compared to other expense, net, for the first quarter of fiscal 2014 of \$3.4 million. The increase in other income, net, was primarily due to an increase of \$0.4 million in the fair value of the conversion option of our convertible bond investment and \$0.5 million gain on sales of stock, compared to a decrease of \$3.4 million in the fair value of the conversion option for the first quarter of fiscal 2014.

Net loss for the first quarter of fiscal 2015 was \$3.6 million compared to net loss for the first quarter of fiscal 2014 of \$7.2 million.

Loss per share for the first quarter of fiscal 2015 was \$0.16 compared to loss per share for the first quarter of fiscal 2014 of \$0.32. Loss per share for the first quarter of fiscal 2015 was reduced by \$0.02 per share due to the increase in fair value of the conversion option of our convertible bond investment and related sales of stock. Loss per share for the first quarter of fiscal 2014 was increased by \$0.11 per share due to the decrease in fair value of the conversion option of our convertible bond investment.

BACKLOG

As of August 2, 2014, funded backlog (unfilled firm orders for which funding is currently appropriated to us under a customer contract) was \$82.0 million compared to \$65.9 million as of April 30, 2014.

FISCAL 2015 — OUTLOOK FOR THE FULL YEAR

For fiscal 2015, the company expects to generate revenue of between \$250 million and \$270 million, and gross profit margins of between 34.5 percent and 37.5 percent, respectively. Planned increases in research and development and business development investments for Tactical Missile Systems, Commercial UAS and Global Observer business areas in fiscal 2015 may largely offset operating profit in the current fiscal year.

The foregoing estimates are forward looking and reflect management's view of current and future market conditions, including certain assumptions with respect to our ability to obtain and retain government contracts, changes in the timing and/or amount of government spending, changes in the demand for our products and services, activities of competitors, changes in the regulatory environment, and general economic and business conditions in the United States and elsewhere in the world. Investors are reminded that actual results may differ materially from these estimates.

FORWARD-LOOKING STATEMENTS

This press release contains "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain words such as "believe," "anticipate," "expect," "estimate," "intend," "project," "plan," or words or phrases with similar meaning. Forward-looking statements are based on current expectations, forecasts and assumptions that involve risks and uncertainties, including, but not limited to, economic, competitive, governmental and technological factors outside of our control, that may cause our business, strategy or actual results to differ materially from the forward-looking statements. Factors that could cause actual results to differ materially from the forward-looking statements include, but are not limited to, reliance on sales to the U.S. government; changes in the timing and/or amount of government spending; changes in the supply and/or demand and/or prices for our products and services; the activities of competitors; failure of the markets in which we operate to grow; failure to expand into new markets; changes in significant operating expenses, including components and raw materials; failure to develop new products; changes in the regulatory environment; and general economic and business conditions in the United States and elsewhere in the world. For a further list and description of such risks and uncertainties, see the reports we file with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.
