“AeroVironment’s Raven tactical unmanned aircraft system is simple to operate, rucksack portable and can be hand-launched for day or night observation. (Photo: Business Wire)

i23 EO/IR gimbaled payload delivers real-time video or infrared imagery to ground control and remote viewing stations.

AeroVironment’s family of small UAS comprises the majority of all unmanned aircraft in the U.S. Department of Defense (DoD) inventory and its rapidly growing international customer base numbers more than 45 allied governments. To learn more visit www.avinc.com.

About AeroVironment Tactical UAS

The RQ-20A/B Puma™, LERQ-11B Raven®, RQ-12A Wasp®, together with the VAPOR® Helicopter comprise AeroVironment’s family of tactical unmanned aircraft systems. This family of systems provides increased capability to the warfighter that gives ground commanders the option of selecting the appropriate aircraft based on the type of mission to be performed. This increased capability has the potential to provide significant force protection and force multiplication benefits to small tactical units and security personnel. AeroVironment provides logistics services worldwide to ensure a consistently high level of operational readiness. AeroVironment has delivered thousands of new and replacement tactical unmanned air vehicles to customers within the United States and to more than 45 allied governments.

About AeroVironment, Inc.

AeroVironment (NASDAQ: AVAV) provides customers with more actionable intelligence so they can proceed with certainty. Based in California, AeroVironment is a global leader in unmanned aircraft systems and tactical missile systems, and serves defense, government, and commercial customers.
