About AeroVironment Tactical UAS

The RQ-20A/B Puma™, Puma™ LF, RQ-11B Raven®, RQ-12A Wasp®, together with the VAPOR® Helicopter comprise AeroVironment’s family of tactical unmanned aircraft systems. This family of systems provides increased capability to the warfighter that gives ground commanders the option of selecting the appropriate aircraft based on the type of mission to be performed. This increased capability has the potential to provide significant force protection and force multiplication benefits to small tactical units and security personnel. AeroVironment provides logistics services worldwide to ensure a consistently high level of operational readiness. AeroVironment has delivered thousands of new and replacement tactical unmanned air
vehicles to customers within the United States and to more than 45 allied governments.
