“AeroVironment provides customers with logistics operation services, such as operator training, flight support and maintenance, to ensure the unmanned aircraft systems and tactical missile systems are operationally ready for deployment at any time,” said Brett Hush, AeroVironment vice president and product line general manager for tactical missile systems.

AeroVironment’s combat proven Switchblade 300 is back-packable and rapidly deployable from ground platforms, including a multipack launcher, providing warfighters with rapid-response force protection and precision strike capabilities up to 10 kilometers (6 miles) from its launch location. Its high precision, combined with specialized effects and patented “wave-off” feature, results in Switchblade’s ability to minimize or even eliminate collateral damage.

### ABOUT AEROVIRONMENT TACTICAL MISSILE SYSTEMS

AeroVironment’s tactical missile systems provide users with the ability to identify threats and deliver a precision lethal payload with minimal collateral damage. [Switchblade@ 300](#) and [Switchblade@ 600](#) loitering missile systems enable the warfighter to easily launch, fly, track and engage beyond line-of-sight targets and light armored vehicles across land, maritime and air-launched scenarios. The [Blackwing™](#) loitering reconnaissance system is a variant of Switchblade designed to provide rapid-response intelligence, surveillance and reconnaissance capabilities and can be deployed from a submarine using an underwater-to-air delivery canister, shipboard or mobile ground vehicle via tube-launch or Multipack Launcher (MPL). AeroVironment’s tactical missile systems deliver the actionable intelligence and precision firepower needed to achieve mission success across multiple domains.
