The webcast will be archived and available for replay following the presentation.

### **About AeroVironment, Inc. (AV)**

Building on a history of technological innovation, AV designs, develops, produces, and supports an advanced portfolio of Unmanned Aircraft Systems (UAS) and efficient electric energy systems. Agencies of the U.S. Department of Defense and allied military services use the company's hand-launched UAS to provide situational awareness to tactical operating units through real-time, airborne reconnaissance, surveillance, and target acquisition. Commercial and governmental entities use AV's clean transportation solutions such as electric vehicle test systems and electric vehicle fast charge systems, as well as its clean energy solutions. More information about AV is available at [www.avinc.com](http://www.avinc.com).
