The webcast will be archived and available for replay following the presentation.

### **About AeroVironment, Inc. (AV)**

AV is a technology company that designs, develops, produces and supports an advanced portfolio of Unmanned Aircraft Systems (UAS) and efficient electric energy systems. Agencies of the U.S. Department of Defense and allied military services use the company's battery-powered, [hand-launched UAS](#) to provide situational awareness to tactical operating units through real-time, airborne reconnaissance, surveillance and target acquisition. AV's electric transportation solutions include [electric vehicle \(EV\) home charging, public charging and fast charging systems](#) for consumers, automakers, utilities and government agencies, [power cycling and test systems](#) for EV developers and [industrial electric vehicle charging systems](#) for commercial fleets. More information about AV is available at [www.avinc.com](http://www.avinc.com).
